

# Sustainability Champions Project

# Project outline

---

- Conservation Council SA/ORs partnership
- Help clubs reduce energy & water use & costs
- Develop structures for future sustainability
- Explore further options for club sustainability

# Aims for today

---

- Identify problems with energy/water
- Identify solutions
- Gain feedback on planned training/guide

# Who pays the bills?

---

- Who pays for electricity?
- Who pays for water?
- How are utilities and bills managed at your club?

*“The best defense against high energy and water bills is building team resilience and sustainable attitudes.”*

# How can we help?

---

- What assistance do you need to reduce utilities costs?
- What barriers do you face in addressing sustainability at your club?
- How can ORS/Conservation Council SA assist?

# Process for club sustainability

---
